

Arizona Department of Transportation Second Public Meeting SR 264 Feasibility Study – Kinlichee to Summit

264 AP 452 H7070 01L

Monday, April 14, 2008 – 6 p.m. – Kinlichee Chapter House

Tonight's Agenda

6 – 6:30 p.m. Open House

6:30 – 7 p.m. Presentation

7 – 8 p.m. Questions and
Answers along with Dinner

Wóshdée' – Welcome

Welcome to the second public meeting for the State Route 264 (SR 264) Feasibility Study. Tonight you will review the revised alternatives and provide ADOT with your comments regarding the revised alternatives.

Project Details

The purpose of the SR 264 Feasibility Study is to improve the SR 264 corridor between the Kinlichee turnoff (Navajo Route 39) and the Defiance Plateau Summit (known as "the Summit"). Ultimately, the study will develop a long-range plan for SR 264 that will look at providing operational improvements and increasing roadway capacity within a specific segment of SR 264, from milepost (MP) 452 to MP 466.

Your Input is Important

The purpose of tonight's meeting is to update the public on the status of the feasibility study and alternatives evaluation/selection process, and to seek comments from the public to help the project team further refine the roadway alternatives. Please share your comments during the Questions & Answers session tonight or fill out a comment sheet. **Comments can be left with the project team tonight or returned by Wednesday, May 14, 2008.** Comment sheets are available at tonight's meeting and at the project web site. (See contact information to the right.)

Project Schedule

Tonight's meeting is the second public information meeting for the SR 264 Feasibility Study. ADOT took public comments from the first meeting into consideration when evaluating and revising alternatives that will be presented tonight. Ultimately, the project team will recommend a highway alternative that best balances traffic needs, safety, cost, environmental considerations and community interests. The SR 264 Feasibility Study is expected to be complete by early 2009. Construction is slated for completion 10-20 years into the future but interim improvements may occur. Public participation is built into every phase of the process and your input is valuable.

For More Information

ADOT Holbrook District appreciates the public's interest and participation in the project. For more information, or to submit comments, contact ADOT:
